Innovating Together: The Global Forum on Industry-UNAI Hub University Collaboration

IUCG Forum

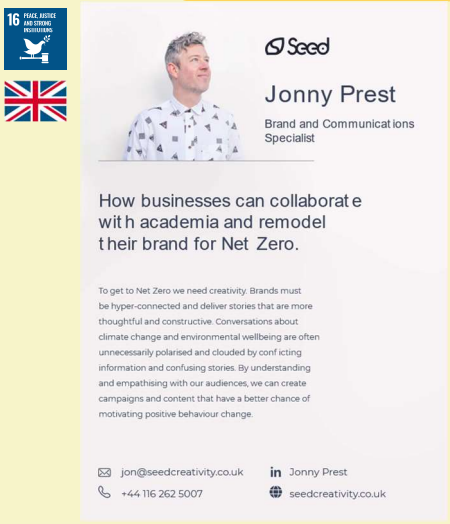
Collaboration between academia and the private sector is a key enabler of the 2030 Agenda in challenging times when we need to harness all the potential we have and explore how can we work together and better.

UNAI : Mr. Omar Hernández

1 Seed

The UNAI SDG 16 Hub at De Montfort University has been working with Seed Creativity to develop new projects which promote sustainability for a number of years. We believe this company is creating new networks and highlighting issues which will protect the environment and promote climate action, using innovative ways of communication and engagement.

Dr. Mark Charlton
Recommendation by SDG16 Hub University

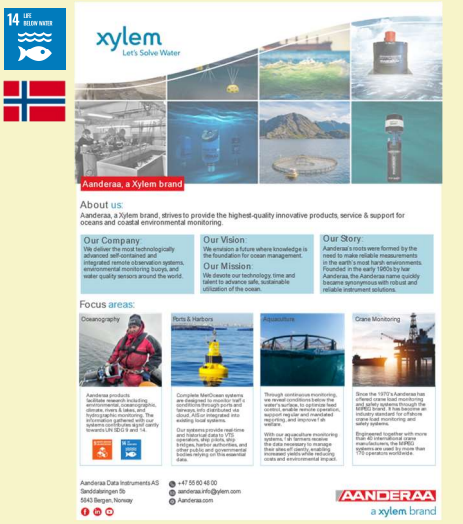


PIC : Mr. Jonny Prest

2 Aanderaa

SFI Smart Ocean is a Norwegian Centre for Research-based Innovation who works with several industry partners to create smarter solutions for our ocean. Aanderaa is a local business founded about 60 years ago, which is now part of the Xylem brand, a global water technology provider. Aanderaa has its roots in the need to make reliable measurements in Earth's most harsh environments. The University of Bergen is proud to partner with a company that is world-leading in creating solutions for oceanographic and other environmental measurements.

Mr. Sverre Ole Drønen
Recommendation by SDG14 Hub University



PIC : Mr. Mark Bokenfohr

3 Mully Children's Family

The Mulli Children Family (MCF) and the MCF Founder Prof. Dr. Charles Mulli have been engaging with Mount Kenya University, the UNAI SDG10 Hub on Reduced Inequalities on climate change mitigation, youth empowerment through entrepreneurial training, education and many other areas. It is our joy to share this platform with MCF.

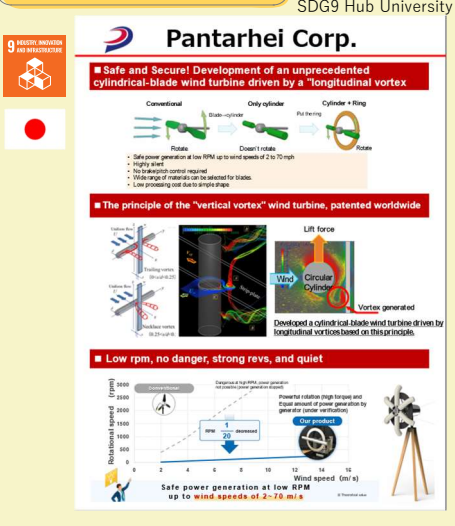
Dr. Mwangi Peter Wanderi
Recommendation by SDG10 Hub University

PIC : Dr. Charles Mutua Mulli

4 Panta Rhei

I strongly recommend this company, a dynamic university-based startup, birthed from the groundbreaking innovations in small wind turbines conceived and nurtured within our Takahashi lab. As they lead the way, transforming industries with cutting-edge technologies, they proudly hold patents across five nations.

Dr. Mami KATSUMI
Recommendation by SDG9 Hub University



PIC : Dr. Yasunori SATO

5 WEnCoop

(Greek Association of Women Entrepreneurs)

The Union of Greek Women Entrepreneurs (SEGE) is an active extrovert member of our BSEC – Green Energy Network that participates in joint efforts for the green transformation of our economies. It is thus promoting our aim to increase the close cooperation of academia with market forces to the abovementioned aim. (WEnCoop is a member of SEGE)

Dr. Dimitrios Mavrakis
Recommendation by SDG7 Hub University

PIC : Ms. Tsaltampasi

6 Agri Mart

I highly recommend Agri Mart for IUCG-Forum (NagaokaUT, SDG9). Their dedication to designing sustainable equipment, promoting precision agriculture, supporting renewable energy, recycling, sustainable farming practices, and fostering industry-academia collaboration, along with their valuable training in sustainable agriculture, make them an exemplary choice for this event.

Dr. Jonas Richard A.
Recommendation by SDG1 Hub University

PIC : Mr. Mani Arjunan
